ABOUT ME

Front-End Developer who enjoys working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

EXPERIENCE

Web development intern

Company: Sync Interns

 Apr 2023 - May 2023 (one month)

- a one-month virtual internship, in this internship I built four projects: A responsive product landing page, a Quiz app, a Music player, and an E-learning platform.
- all of this project was built with HTML, CSS, and vanilla JS and you can find them all in my portfolio

SKILLS

- HTML
- CSS
- Javascript
- Bootstrap
- ReactJs
- JSON
- git & github

CERTIFICATIONS

Meta: Advanced React

Skills: React, React hooks, higher order components, render props, Formik, Chakra UI

PROJECTS

VanLife

- A web application for renting vans.
- This project is built with react, react-router, and firebase(Firestore and Auth).
- Note: if the website does not open try using a VPN.
- GitHub Repo: [VanLife Repo](#)
- Demo: [VanLife](#)

E-commerce website

- E-commerce website for selling headphones, game controllers, and other electronic devices.
- this project is built using react and react-bootstrap.
- The state of this app is managed using the context API
- GitHub Repo: [E-commerce Repo](#)
- Demo: [E-commerce](#)

Github Octal

- A single-page application that deals with Github API.
- this site displays everything about any user in GitHub like his repos, stars, number of followers, etc...
- Github Repo: [Github Octal Repo](#)
- Demo: [Github Octal](#)
